

The Wisdom of God in an Enlightened Age

Bro. Paul Jackson

When you think of someone who is wise who do you think of? Maybe you think of someone smart and intelligent like one of your professors or one of your grandparents? Or would you think of someone like Bill Gates, Albert Einstein, Stephen Hawking, or even Mark Zuckerberg? These are smart people whose ideas have changed the world we live in.

Today, nearly any source of knowledge is instantly available on the internet if one has the desire to learn and understand. We can become wise on any number of subjects if we have the capacity to understand the subject and enough time to dedicate to its study and practice. The same goes for the Bible. It is the source of God's wisdom and we can learn a lot if we apply ourselves to understanding its teachings. But there is a distinct difference between the wisdom that's in the world and the wisdom of God and this will be the focus throughout the week.

My hope is that by the end of the week we will have a deeper appreciation for the love God has for us in that He has given us his Word which is able to make us "wise unto salvation".
