

Bro. Anthony Whitehorn “Mind Set or Set Mind?” (3rd class)

The people who started the Christadelphian Community did so by challenging “institutionalized Christianity” at the time. The community that was formed had no hierarchy, took its principles and practices from the bible and established autonomous ecclesias across the globe.

This was a tremendous blessing to our community and was a format that encouraged free thinking and spiritual growth. However, over the past few decades some of that has been thwarted. Whilst God and the Lord Jesus Christ do not change, we have a tendency to codify and legalize our biblical understanding which sometimes inhibits our own growth.

The purpose of these sessions at GLCBS is to challenge our own mind set and consider our ecclesias directions in a positive and Christ-like manner. ‘Freedom in Christ’ is an amazing gift, but tough to implement and gain consensus. We will look at Biblical principles and modern day methods to guide our thoughts and considerations.
