

**Dyron Hamlin:**

What's in a name? We use the name, the word, "God."

But what's His name? This class will look at what God's name(s) tell us about His character, and how the meaning(s) can help us understand His character, and His plan for us. Most humans are drawn to "divine" characters. The idea of a being which possesses a nature above what we are capable of achieving is compelling! But the Divine is more than just an invisible perfect Magician - God wants us to know His character, so we can emulate His character, to our own benefit, and to His glory. Simply put, life works better when everyone is aspiring towards the divine, and God's divine name(s) give us an insight into who He is, and who He desires us to be.
