"Gifts"

In the context of a Bible discussion, the word “gifts” immediately makes us think of “gifts of the Spirit”, the miraculous gifts of the first century. But can it really be that God has given no gifts other than those? No one would make such a claim. All through God’s working with mankind, periods of open miracles have actually been exceptional, not common. They wouldn’t be miracles otherwise! But God has *always* been involved in the lives of His people, and has always provided gifts to us. In this class we’ll take a look at the *other* gifts—and what we’re to be doing with them.
